So while downloading the Zip file I am getting a warning as shown below. I have also tried to use WSO2-carbon-console.zip but I am getting the same error. My question is can I get what's the reason behind this warning and what to do in order to install WSO2 DAS successfully using WSO2-DAS.zip Thank you in advance. A: As by the error message you are trying to install the WSO2 Carbon to docker container. That is not supported by WSO2 and as a bug in their package. You should use WSO2 Carbon-cli instead (WSO2-DAS zip file is getting
